

SOFTWARE DEVELOPER

Results-driven software development professional with comprehensive experience across the full project lifecycle from client requirements gathering to solution delivery. Proven expertise in backend development, database design, API integration, and cross-functional team coordination. Demonstrated international experience through on-site client engagement in Kenya, leading project discussions, presentations, and technical workshops. Adept at aligning business objectives with technology solutions, ensuring timely, scalable, and high-quality product delivery in Agile environments.

CORE COMPETENCIES

Full-Stack Development	International Client Interaction (Kenya)	API Integration
Client Analysis	Frontend Coordination	Database Optimization
Backend Design	Project Management	Agile Methodology

PROFESSIONAL EXPERIENCE

Bharathbrands Private Limited - India / Kenya
Software Programmer

Jan 2022 - Present

Demonstrated expertise in full-stack development and end-to-end project lifecycle, delivering client-focused solutions with a focus on efficiency and scalability. Experienced in managing projects from requirements gathering to frontend-backend coordination, database design, API development, and deployment, consistently aligning with business objectives.

Led a 3-month on-site engagement in Kenya, driving project discussions, technical presentations, and real-time collaboration with stakeholders, fostering strong client relationships and ensuring alignment between client expectations and technical delivery.

Accomplishments:

- Client Requirements & Solution Design: Spearheaded the gathering and analysis of business requirements, working closely with client stakeholders to design tailored technical solutions that met business needs and objectives.
- Cross-functional Team Coordination: Coordinated and delegated tasks across frontend and backend teams, ensuring clarity of roles, efficient progress tracking, and timely issue resolution to maintain project momentum.
- Backend Development & API Design: Developed robust backend systems and RESTful APIs for dynamic web and mobile applications, ensuring high performance, security, and smooth integration with frontend components.
- Database Design & Optimization: Designed and maintained scalable, high-performance relational databases (e.g., MySQL, PostgreSQL), optimizing data queries and structures for improved performance and scalability.
- Agile Methodology & Timely Delivery: Actively participated in Agile ceremonies including sprint planning, reviews, and retrospectives, ensuring smooth workflows, continuous feedback loops, and on-time delivery within scope.
- Client Demos & Technical Presentations: Delivered impactful product demos and technical presentations to clients, ensuring clear communication of progress and translating technical insights into actionable business value.
- On-Site Leadership (Kenya): Acted as the primary technical liaison during the Kenya assignment, strengthening the client relationship and ensuring the alignment of project goals with client expectations, driving efficient project decisions and faster issue resolution.

TECHNICAL SKILLS

Front End: HTML ,CSS ,JS ,React ,Redux ,Bootstrap .

Back End : Python ,NumPy ,Pandas,Django ,RESTful APIs .

Database : SQLite3 ,MySQL ,PostgreSQL

Visualization tools : Tableau ,Power BI , Matplotlib.

Industry Knowledge: UX/UI, Development Operations, Testing, Debugging, Usability Research.

EDUCATION

Bachelor of Computer Science and Engineering

- RVS College Of Engineering and Technology Coimbatore,Tamil Nadu
-

CERTIFICATIONS

Programming with Python 3.X

Simplilearn • 2024

Introduction to Artificial Intelligence

Simplilearn • 2024

Python Full Stack Developer

Workspot • 2021

PROFESSIONAL ACHIEVEMENTS

- Drove end-to-end delivery of full-stack development projects, ensuring smooth execution from planning to deployment
 - Led on-site client engagement in Kenya, aligning technical solutions with business expectations through real-time collaboration
 - Transformed client requirements into scalable and maintainable technical architectures
 - Developed backend systems and RESTful APIs to support high-performing web and mobile applications
 - Designed and optimized relational databases for improved performance, scalability, and data integrity
 - Coordinated cross-functional teams, enabling efficient collaboration between frontend and backend developers
 - Delivered technical demos and presentations that clearly communicated progress and technical value to stakeholders
 - Contributed to Agile development practices, supporting continuous delivery and adaptive planning
-
